

Animal Welfare Mission Statement

Harris Ranch Beef Company is committed to the humane treatment of animals. As an integrated company we have long recognized the value of treating animals in the most humane manner possible. Harris Feeding Company and Harris Ranch Beef Company will continue to maintain this trust and confidence within the surrounding communities and with our customers. As stewards and custodians of the animals from our feedlot all the way through our harvest and processing facility, we assure the best possible treatment of our animals. In the event the company finds it necessary to purchase cattle through outside sources, they will also be responsible to assure the same stringent animal handling policies are followed.
